## **DETAILED ACTION**

## Election/Restrictions

- 1. Applicant's election with traverse of Species I, claims 10-22, directed to the embodiment of Fig. 2, within the Group II invention, claims 10-22, directed to a method of fabricating a non-volatile memory device, in the reply filed on 07/22/2004 is acknowledged. However, the traversal is not directed to the differences between Group I and Group II inventions and between the species within each group. The requirement is still deemed proper and is therefore made FINAL.
- 2. Claim 10 is generic within the Group II invention and is allowable. Accordingly, the restriction requirement as to the encompassed species within Group II is hereby withdrawn and claim 22, directed to the species of Figure 11 no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. Claims 1-9 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim between Group I invention and Group II invention. Applicant timely traversed the restriction (election) requirement in the reply filed on 07/22/2004; however, as noted above, the argument is not persuasive.

Art Unit: 2818

Examiner's Amendment

4. An examiner's amendment to the record appears below. Should the changes and/or

additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the

payment of the issue fee.

5. As noted above, Applicant elects with traverse Group II invention, claims 10-22, drawn

to a to a method of fabricating a non-volatile memory device. However, Applicant did not

distinctly and specifically point out the supposed errors in the restriction requirement, the

election has been treated as an election without traverse (MPEP § 818.03(a)).

The restriction requirement is still deemed proper and claims 1-9 have been canceled.

6. Claim 10, line 5, "a charge trapping layershaped like" has been amended to:

"a charge trapping layer shaped like"

Allowable Subject Matter

7. Claims 10-22 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record

fails to teach or render obvious a method of fabricating a non-volatile memory device having all

limitations as recited in claim 10. In particular, U.S. Patent 6,093,945 to Yang, in disclosing a

split-gate flash memory with two spacer-like floating gates sandwiching a control gate, fails to

disclose forming a charge trapping layer and fails to disclose forming an upper oxide layer covering the sacrificial layer and the charge trapping layer; and U.S. Patent 6,335,554 to Yoshikawa, in disclosing 14 embodiments of a non-volatile memory device comprising two ONO or NON spacer-like charge-trapping layers sandwiching a control gate, fails to disclose forming a sacrificial layer on the lower oxide layer and patterning the sacrificial layer to form an opening and fails to disclose forming an upper oxide layer covering the sacrificial layer and the charge trapping layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

- 8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Copies of the references are not being furnished with this Office Action per MPEP § 707.05(a).
  - U.S. Patent 6,093,945 and U.S. Patent 6,335,554 as mentioned above.
- 9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tu-Tu Ho whose telephone number is (571) 272-1778. The examiner can normally be reached on 6:30 am 5:00 pm.

Application/Control Number: 10/626,113
